

**What folks are sayin' about
Wylie & the Wild West's Symphony Program**

"It was truly a pleasure to work with Wylie Gustafson and to present "Wylie and the Wild West". The music was beautiful, was beautifully sung and the orchestral charts were very well-written. The orchestra enjoyed playing the concert and the sold-out audience loved it!"

It is my pleasure to report to you the outstanding nature of Wylie Gustafson's (Wylie & The Wild West) performance in February, 2009, with the Pigeon Forge (TN) "Saddle Up" Symphony Orchestra.

"Professional from beginning to end" would be my description of our experience with Wylie. He was prompt to rehearsal and very meticulous and organized as we went through each song. This was the first year we finished the rehearsal with the guest artist early. (The orchestra members really appreciated that!)

The actual performance went as smooth as the rehearsal and several members of the audience who had attended in previous years told me this was the best yet. I would have to agree and attribute this to Wylie.

It was a joy to perform with this professional entertainer and I would encourage any orchestra who might have this opportunity to not pass it up. It will be a wonderful musical experience for everyone!

Again, thank you SO MUCH for coming to San Diego and performing with us. I can't imagine a better musician and artist to work with on this type of concert. You are so easy to work with and professional.... I hope we can work together again sometime.

Conductor Classics 4 Kids and the Classics
Philharmonic Orchestra**

A near-capacity audience of 1500 tapped their toes and had good laughs as Wylie and Paul kept them thoroughly entertained for two hours of great music and poetry. And let's not forget the (Spokane) Symphony, who under the direction of German-born Conductor Eckart Preu, were absolutely superb! The performance earned an encore and two standing ovations.
